## PREFACE.

An undertaking so costly in time, labor, and money as the preparation of this, the most complete phonographic dictionary and phrase-book ever published, would hardly have been entered upon had not the great utility of works of its class been abundantly demonstrated during the half century which has elapsed since the publication of Isaac Pitman's first "Phonographic and Pronouncing Vocabulary of the English Language." That work made its first appearance in 1850, and so obvious was its importance to learners of phonography that not fewer than seven editions of it have been published in England, several of them appearing in many distinct issues.

In this country, where Pitman phonography has developed upon somewhat different, and we cannot but think more healthful, lines than in England, various phonographic "dictionaries," "vocabularies," and "phrase-lists," more or less complete, have been published. "The Phrase-Book," first issued by Benn Pitman as early as 1860, and "The Phonographic Dictionary," by Benn Pitman and Jerome B. Howard, first issued in 1882 (both of which have been repeatedly issued under various

dates), are merged in the present work, which, however, is now so amplified, both as to material and method, as to constitute a new and distinct production.

The benefits of a phonographic dictionary, while extending to all phonographers who aim at higher proficiency in their art, accrue chiefly to the self-instructed and to those students who, after taking a course of instruction in a school, have passed from under the eye of the teacher and are going through the early stage of practical experience as amanuenses or reporters—a stage during which even harder study and more devoted practise than is often found in schools is essential, if higher steps are to be taken. For such the dictionary is especially intended, and, if rightly used, will prove indeed a “guide, philosopher and friend.”

The words *if rightly used* are advisedly set down. There is a way of using, or, rather, of misusing, a dictionary which makes it rather an enemy than a friend. The student who finds himself falling helplessly into the habit of turning to the word-list as a matter of course to find the outline for a new word the moment he comes upon it, instead of first *thinking out* and *writing out* the outline *his own judgment* approves, had better throw his dictionary away. To him, if such habit be persisted in, the dictionary will be but an enfeebling influence which will dry up in him all impulse to original phonographic thought and render him a helpless victim of circumstances whenever in the heat of actual reporting he comes upon a

strange word against which he has not armed himself by previously looking into his dictionary.

All phonographic study and practise has for its object the empowering of the writer unhesitatingly to construct, upon sound phonographic principles, legible outlines expressive of each and all the words which may come to his ears in the course of a report. The great mass of common words become so familiar to the experienced reporter that he writes them not only without hesitation, but almost without thought. Nevertheless every day, if not every hour, of his work may bring to him words which are rare, or even wholly new to him—so far as their phonographic forms are concerned, at least. For these words he has no familiar forms pictured in his memory, and if he is to report them truly he must *build* outlines with lightning rapidity and with unfailing accuracy of formation. This power of outline-building rests upon a practical mastery of the *system* of phonography as such, and it is to be acquired only through thorough study of phonographic principles and much careful drill in applying these principles slowly and methodically to practise.

And right here it is, in this slow, accurate practise, that the dictionary helps or hinders. It hinders if the learner gives way to the temptation to let it do his thinking for him. It helps immeasurably if he does his own thinking first and appeals to the dictionary in those cases of doubt as to the excellence of his own results which may naturally and rea

sonably arise in the work of any student. The function, then, of the dictionary, as to the learner of phonography, is to solve doubts; to inform the student whether the result of his efforts is right, faulty, or wrong. No state of mind, save that of stupid self-satisfaction, can be more perilous to the learner than that of anxious doubt. The questions "Am I doing well?", "Are my patient efforts of avail?", "Am I on the right track?", if left too long unanswered may, nay, are likely to, lead to discouragement and final abandonment of the most cherished enterprise. The dictionary should be the counselor who answers these questions promptly and truthfully. The student who sees outline after outline, over which he has faithfully toiled and honestly doubted, approved by the appeal to the dictionary, is stimulated and encouraged. His references to the book gradually become fewer, for he learns to respect his own judgment—the book having shown him that it is worthy of respect. The student who is greeted by reproof after reproof, as he compares his faulty structures with the perfect models, will, if he is wise, soon take the hint and return to his elementary text-books. He will review as often as need be his *Manual* and *Companion*, where he may learn, not merely phonographic outlines, but *phonography*—the science and art of building and vocalizing phonographic outlines.

It is evident, moreover, that a dictionary, to be of any considerable use, must be of a very comprehensive character.

It is not the easy, simple forms about which the student is likely to be in doubt, but those of rarer occurrence and complicated structure—those in whose formation well-founded doubts may arise, and concerning which even doctors may sometimes disagree.

It is for the reason just indicated that a very considerable proportion of technical and foreign words and phrases have been included in this work. The reporter or amanuensis who finds himself about to be called upon to write about technical matters will act wisely to make some preparation therefor, however hasty and superficial it may perforce be. In these days of increasing specialization, the range of technical reporting is widening rapidly. The busy phonographer may to-day be called upon to report a convention of physicians—it may be laryngoscopists or neurologists; to-morrow, of engineers—it may be hydraulic or mining experts; and, again, of manufacturers—it may be nail-makers or silk-weavers. In such emergencies even the smallest interval of time will be availed of by the prudent reporter, who may not only vastly lighten the labor involved in making the report but even save himself from humiliating defeat by reading up the general subject in such cyclopedias or text-books as may be at his command, and especially by studying the significations and *practising the best phonographic outlines* for new words therein found. In this process it is believed that the "Dictionary and Phrase-Book" will be most helpful. It is in view of the fact that reporters

are nowadays called upon with especial frequency to write medical terms that this portion of the vocabulary has received especial fullness of treatment in the following pages.

In the 1861 edition of the "Phrase Book," the following prefatory words are printed :

The extent to which the capacities of the phonographic system are developed in this work, in the special direction to which it is devoted, will both surprise and gratify the phonographer. Indeed, had the system been framed with a special view to the writing of phrases, rather than accurate representation of the elementary sounds of the language, it could scarcely have presented a greater degree of philosophic brevity and completeness than is exhibited in the phraseographic abbreviations of this work.

The extent of the development of phrase-writing in the present volume is (especially when the cross-references are taken into consideration) several times as great as that of the original work. This portion of the book will be found exceedingly useful to the learner, not merely for reference, but as a subject of special study and practise. It is recommended that the student write, first by copying and afterwards from dictation, the entire mass of phrases herein given. He will thus not only receive a valuable training of the hand, and also acquire a ready use of many phrases which will be retained in his memory, but, far more important, he will obtain such a practical knowledge of the principles of phrase-writing, and familiarity with the classes of words which unite to form phrases, as will enable him thereafter to construct correct phrases instantaneously while in the actual process of reporting.

## INTRODUCTION.

This book aims to include in its vocabulary every word of the English language which is not "obsolete," "archaic," "very rare," or ultra-technical. It also includes a large number of those words from foreign languages which have come into frequent or occasional use in English speech and literature. It thus contains all the words which the practical phonographer is likely to meet with in his work. Besides this extensive word-list the book comprises a phrase-list of several thousands of useful English and foreign phrases.

Each word in the vocabulary is considered with respect to the following points:

*a. Spelling.* The modern spelling in most general use is given. In cases where two or more spellings are prevalent, the simplest is chosen. Thus *adz*, *con*, instead of *adze*, *con*. Occasionally, more than one spelling is given, especially where usage is not settled or where there is a differentiation of meaning, as *abater* and *abator*.

*b. Accentuation.* The main accent of each word is marked by the sign (') immediately after the accented syllable. Secondary accents are not marked.

*c. Pronunciation.* To the phonographer this Dictionary is a perfect pronouncing lexicon. The accent being marked in the typic word, and the phonetic elements shown in the engraved shorthand form, the pronunciation of each word is unmistakably indicated. In choosing the pronunciation in those cases where usage is divided or theories differ, reference has been had to the three great authorities—"Webster's International Dictionary," "The Century Dictionary," and "The Standard Dictionary." No one of these works has on all points been accepted to the exclusion of the others. On certain systematic points of pronunciation, however, as particularly the values of unaccented vowels, "Webster" has, in general, been followed; on others, as, for instance, the values of the consonants *t*, *d*, *s*, *z*, when followed by *i* or *y* sounds, the doctrine of the "Century" has seemed most acceptable; while in isolated cases of diverse pronunciation, the three authorities have been compared and, generally speaking, the pronunciation favored by a majority has been held to prevail.

*d. Capitalization.* Only those words are capitalized in the vocabulary which should be so written in the middle of a sentence.

*e. Phonographic Representation.* The fully-vocalized ("corresponding style") form of every word is shown in engraved phonographic characters in close proximity to each typic word in the vocabulary. The typic words are arranged

in columns, divided into groups of three, and the corresponding phonographic forms are arranged in lineal groups of three, and each phonographic group is placed immediately to the right of its corresponding typic group.

*f. Grammalogues.* Every word which, in the corresponding style of phonography, is considered as a grammalogue, is repeated in CAPITALS immediately following its main entry, and its corresponding logogram appears in its appropriate place in the shorthand column.

*g. Reporting Outlines.* The reporting outline of a word is generally the same as the corresponding style outline, the vowels being simply omitted. In certain cases, however (see *Reporter's Companion*, paragraphs 14 to 18), it is necessary to write the reporting outline "in position," and in such cases the typic word is followed by an Arabic figure "1," to indicate that the reporting outline is written in the first position, or by a figure "3," to indicate that the reporting outline is written in the third position. Whenever the reporting outline is contracted, or is in any other way different from the regular unvocalized outline, the word is reprinted in the vocabulary in SMALL CAPITALS, and the reporting outline is given in its appropriate place in the column of engraved shorthand.

*h. Compounding.* The phonographic outlines of those compound words which in longhand are written with the hyphen, are given with the phonographic hyphen only in cases in which the component outlines do not admit of ready joining. When

the component words can be conveniently joined, they are written as a single outline formed without lifting the pen. In the reporting style the hyphen may be omitted even in those cases in which it is used in the corresponding style. Compound words are thus practically treated as phrases, which indeed they are.

*i. Phrase-Writing.* The principal phrases built upon any word are given immediately following the word, in its regular place in the vocabulary. The repetition of the first word or words in the phrase-lists is indicated by the system of ditto marks formerly used in the *Phrase-Book*. A single mark brings down the first word of the preceding phrase, two marks bring down the first two words of the preceding phrase, and so on. In general, no attempt is made in this book to carry joined phrases beyond the third word, as but a small proportion of phrases of greater length will be found useful. However, no positive rule can be given to limit the extent of joined phrases, it being possible for writers of small, neat hands to carry them to greater lengths than those who write a larger and bolder style. Cross-references are therefore given to indicate those cases in which more extensive joining *may* be used if thought desirable by the individual writer, who, in such cases, is the only competent judge, with regard to his own practise, as to whether or not joining may be extended and still subserve speed, convenience, and legibility.

From the vocabulary are omitted:

*a.* All regular plurals of nouns; *i. e.*, those that are regularly written in phonography by adding a circle-*s* or -*s* to the outline of the singular, and those that are formed by enlarging a circle that ends the singular.

*b.* All regular preterites; *i. e.*, those formed in phonography by halving a final full-length stroke that ends the present, or by adding the stroke-*d* to a final half-length stroke that ends the present.

*c.* All present participles and most verbal nouns ending in -*ing*, when the final syllable is written in phonography with the dot.

*d.* The third-person singular indicative forms of verbs, when regularly formed by the addition of circle-*s* to the form of the infinitive, or by enlarging a circle that ends the form of the infinitive.

# THE PHONOGRAPHIC DICTIONARY AND PHRASE BOOK.

## A

a  
A  
i bargain  
i board  
u meeting

A, an, and, may be written with the horizontal tick as the first word of a phrase, provided the tick can be joined conveniently, and at a distinct angle, to the following word. When so joined the tick does not give the position to the phrase but accommodates itself to the position of the following word (see Rep. Comp. par. 50). When the joining of the horizontal tick would produce an obtuse angle, or no angle whatever, it should not be employed, and the word should be expressed by a horizontal or vertical tick attached to the preceding outline, or, if this be inconvenient, by the disjointed dot

it (see that)				m a (see sure)	i bespeak
grateful				m the	i bought
gratified				m n't (cp. do the)	i bring
greatly				m there	m a (see bring)
inclined				m therefore	i brought
obliged				m threatened	m it
having				m told	i call
a (see having)				m truly	m a (see call)
he				m glad (see truly)	i can
in				m trying	m account (see can)
doubt (see in)				m undecided	i cannot
inclined				m very	m account (see cannot)
to (see inclined)				m certain (see very)	i change-d
informed				m willing	i charge-d
known				m a (see willing)	m a (see charge)
looking				m writing	i clearly
making				i answer	i come
most				m for (see answer)	m across (see come)
never				i anticipate	i consider
nevertheless				m his (see anticipate)	m a (see consider)
no				i appear	i could
more (see no)				m there	m agree (see could)
not				m to have	i dare
accustomed				i apprehend	m a (see dare)
doing				i apprehend	i declare

NOTE.—Many words exist in pairs beginning with un- or in- with no variation of meaning, as uncomplete, incomplete; unelastic, inelastic. In ordinary reporting practise it is unnecessary to distinguish between these forms, but if in any case it is desired to represent literally the speaker's usage the vowel must be written in.

[July, 1920.]

### Instruction Books.

**The Primer of Shorthand.** Being an Easy Introduction to Pitmanic Phonography thru Words of one Syllable. By JEROME B. HOWARD. This book does not purport to be a complete exposition of the art of Phonography. It is a *first book* designed especially for young learners, and intended to serve as an easy introduction to the study of the complete system as expounded in the *Phonographic Amanuensis*. Paper cover, cloth back, 60

**The Phonographic Amanuensis.** A Presentation of Pitman Phonography, More Especially Adapted to the Use of Business and Other Schools Devoted to the Instruction and Training of Shorthand Amanuenses. By JEROME B. HOWARD. With a Prefatory Note by BENN PITMAN. In this book position-writing and the principles of abbreviation are taught along with the elements of the system. It consists of fifty-nine carefully-graded lessons, each devoted to the development of a single broad feature of the phonographic system. Outlines of words are given in the first lesson; sentences are given in the eighth lesson; phrases appear in the fifteenth lesson; business letters are written in the twenty-second and subsequent lessons. Cloth . . . \$1 25

**Progressive Dictation Exercises.** Designed to Accompany *The Phonographic Amanuensis*. By JEROME B. HOWARD. Furnishes connected matter that can be read as dictation practice to the learner at all stages of his advancement—from the earliest lesson to the end of the text-book. Paper . . . . . 30

- Business Letters. No. 1.—Miscellaneous Correspondence.** Written in the Amanuensis Style of Phonography. By BENN PITMAN and JEROME B. HOWARD. The letters have been selected from actual correspondence in various branches of business, and, being free from difficult technicalities, are such as will furnish the best practise for young students of shorthand who are ready to begin fitting themselves for the duties of the shorthand correspondent or business amanuensis. With key printed in facsimile typewriting, furnishing correct models for the transcription of the student's notes on the typewriter. Paper..... \$0 30
- Business Letters. No. 2.—Railroad Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters actually used in various departments of railroad work. Key in facsimile typewriting. Paper..... 30
- Business Letters. No. 3.—Classified Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters used in the following lines of business: Hardware, Railroad, Grain and Milling, Real Estate, Banking, Explosives, Glass. Key in facsimile typewriting. Paper ..... 30
- Business Letters. No. 4.—Insurance Correspondence.** Written in the Amanuensis Style of Phonography. Consists of fire, life, and marine insurance letters. Key in facsimile typewriting. Paper ..... 30
- Business Letters. No. 5.—Classified Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters used in the following lines: Machinery, Oysters, Live Stock Commission, Iron and Steel, Circulars, Coppersmithing, Lumber. Key in facsimile typewriting. Paper..... 30
- Business Letters. No. 6.—Classified Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters used in the following lines: Electric Machinery, Interurban Railway, Legal Correspondence, Machine Tools, Crackers and Biscuit, Cotton Commission, Cotton Spinning. Key in facsimile typewriting. Paper..... 30
- Business Letters. No. 7.—Classified Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters used in the following lines: Denatured Alcohol, Ship-building, Contracting Engineering, Meat-packing, Grain and Feed, Law Office Correspondence, Box-making. Key in facsimile typewriting. Paper..... 30
- Business Letters. No. 8.—Automobile Correspondence.** Written in the Amanuensis Style of Phonography. Consists of letters on the various branches of the automobile business. Key in facsimile typewriting. Paper..... 30
- Civil Service Letters.—United States Government.** Written in the Amanuensis Style of Phonography. Consists of authentic specimens of letters emanating from the governmental departments. Key in facsimile typewriting showing approved government form of transcription. Paper..... 30

- Legal Forms.** Written in the Amanuensis Style of Phonography. Comprises forms for deeds, mortgages, contracts, acknowledgments, and a variety of other indentures. With Key in facsimile typewriting showing correct modes of transcription. Paper 30
- The Manual of Phonography.** By BENN PITMAN and JEROME B. HOWARD. Designed for instruction in Schools, Academies, etc., as well as for self-instruction, in the art of Shorthand Writing. It contains a complete exposition of the system, from its simplest principles to the Amanuensis Style, arranged in alternate and opposite pages of explanation and phonographic exercises. Cloth ..... \$1 25
- The Reporter's Companion.** By BENN PITMAN and JEROME B. HOWARD. A Guide to Verbatim Reporting; for professional reporters and those who desire to become such. In this work, which should be studied only by those who have first mastered the elements of Phonography in the *Amanuensis* or the *Manual*, the principles of abbreviation used in the Reporting Style are clearly explained and amply illustrated. An invaluable handbook for the advanced phonographer. Revised edition. Cloth..... 1 50
- The Phonographic Dictionary and Phrase Book.** By BENN PITMAN and JEROME B. HOWARD. Contains a vocabulary of 120,000 words, including every useful word in the language and a large number of proper and geographic names, legal, scientific, and technical terms, engraved in Phonography with a parallel key in ordinary type. Concerning each word information is given on the following points: 1. Spelling; 2. Accentuation; 3. Pronunciation; 4. Capitalization; 5. Fully vocalized phonographic form; 6. Reporting Style outline; 7. Compounding; 8. Principal phrases which it begins. The phonographic outlines are clearly and beautifully engraved, no roundabout, complicated "nomenclature" being employed. Specimen pages will be sent on request. Cloth, 552 pp., 8vo..... 3 00
- Questions on "The Phonographic Amanuensis."** By JEROME B. HOWARD. A series of questions that may be used by teachers as a basis for written examinations or for oral quizzes. Paper 25
- A List of Logograms, Contractions, Phrases, and Other Special Forms,** contained in "The Phonographic Amanuensis." By JEROME B. HOWARD. Paper..... 15
- Instructor in Practical Court Reporting.** By H. W. THORNE. The standard work on this important subject. Exemplifies, explains, and instructs as to all the details of trials, teaching the shorthand writer how to use his skill in making a legal record. Contains valuable suggestions to lawyers and law students found in no other work. Has received emphatic testimonials from official court reporters, judges, lawyers, law lecturers, teachers of shorthand, and the press. Cloth ..... 1 25

## Books Printed in Phonography.

<b>Technical Reporting. No. 1—Manufacturing.</b> With key. Paper .....	30
† <b>Inorganic Chemistry.</b> By E. C. C. BALY, F. R. S. Paper.	30

\*Key, in ordinary print, will be sent, postpaid, for sixteen cents.

†Key, in ordinary print, will be sent, postpaid, for twenty-five cents.

## Typewriter Instruction.

**The Typist.**—A course of lessons in the proper fingering and the efficient manipulation of the typewriter, together with a collection of graded matter suitable for practise in the application of the art of typing to commercial, professional, and private uses. By J. E. FULLER. Designed for self-instruction and for use in schools. Adapted to standard shift-key machines. In six sections: 1. Introduction.—Keyboards.—Fingering.—Machine Study.—Manipulation, etc. 2. Business Letters.—Introduction; Model Forms; Problems; Envelops.—Model Forms.—Exercises.—Systematic Review. 3. Legal Forms.—Introduction; Models; Problems.—Systematic Review. 4. Tabulating.—Introduction; Billing; Model Forms; Problems.—Systematic Review. 5. Miscellaneous Forms.—Reviews. 6. Literary Selections for Practise. Cloth, oblong 4to. . . . . \$1 25

**The Touch Writer.**—A text-book for self- and class-instruction in the art of operating the typewriter without looking at the keyboard. By J. E. FULLER. Designed for writing-machines having a shift key and the "Universal" keyboard. Boards, oblong 4to. 75

## Miscellaneous.

**Sir Isaac Pitman, His Life and Labors.** By BENN PITMAN. A unique history of the invention and development of Phonography, told in the form of a biography of the Inventor, written by his brother. Cloth . . . . . \$1 00

**A Manual of Language Lessons.** By F. R. HEATH. A text-book on English, designed more especially for use in commercial colleges and schools of shorthand. The following subjects are briefly but comprehensively treated, and suitable exercises are furnished: 1. Grammar; 2. Practical Analysis—Missing-Word Exercises; 3. Synonyms; 4. Definition and Use of Words; 5. Capitalization; 6. Punctuation; 7. Composition; 8. Correspondence; 9. Spelling; 10. Etymology; 11. Homonyms. Cloth . . . . . 1 00

**How Long—A Symposium.** Consists of contributions on the length of time required for obtaining *verbatim* speed in shorthand writing, from the pens of many eminent reporters. A remarkable assemblage of opinions and experience. Full of happy suggestions to teachers and self-instructed learners of shorthand. Illustrated with a finely-engraved portrait of each contributor. Paper. . . . . 50

**The Teaching of Shorthand.** By G. A. CLARK. This essay was awarded a prize of Two Hundred and Fifty Dollars offered by the editor of the *Phonographic Magazine*, in which it was originally printed. It should be read by every progressive teacher of shorthand. Paper. . . . . 25

**The Mastery of Shorthand.** By DAVID WOLFE BROWN. Late Official Reporter National House of Representatives. An essay on mastery by a master. One of the most important contributions to the literature of shorthand pedagogy. It should have an attentive reading and re-reading by every thoughtful teacher of Phonography. Paper ..... 35

**Phonography—What It Is and What It Does.** By BENN PITMAN. Gives a concise account of the nature and capabilities of Phonography (including a compend of the art, with engraved examples accompanied by key-words); also a brief historical account of the origin and development of Phonography in England and America. Paper ..... 3

Special imprint editions for schools at greatly reduced rates.

## Phonographic Stationery.

**The Phonographic Institute Loose-Leaf Tablet.** This tablet possesses the following advantages, which make it the most convenient and most economic shorthand note-book for the use of shorthand writers:

1. It lies open on the table perfectly flat, there being no fold in the paper.
2. The paper is held in the cover by metal arches, strong and permanent in construction—superior to rubber elastic bands, which quickly decay, and to tapes, which are inconvenient both in turning the page and in removing a portion of the sheets.
3. The sheets can be removed and replaced quickly and easily. Any one or more of the sheets may be removed without disturbing the rest.
4. The page can be turned with perfect ease and convenience, as the polished metal rings create no friction.
5. The triply-perforated sheets may be readily bound with tapes when removed from the tablet. In this way the notes of any single piece of work may be permanently preserved intact.
6. When notes are transcribed the tablet may be doubled back on itself and inserted in any kind of copy-holder, just as any other note-book, or it may be used itself as a copy-holder by standing it upright.
7. Perforated paper for refilling may be bought in any quantity, ruled with single or double lines, and suitable for use with pen or pencil.
8. The tablet is strongly made and will last for years.

N. B.—This tablet is especially adapted to the use of schools of shorthand. For this purpose it is provided with *four guide-cards* that separate the sheets into four divisions—*Copying Exercises, Writing Exercises, Dictation Exercises, and Corrections.* By the use of the tablet the student has his work in one compact cover and the guide-cards enable him to turn instantly to any of its divisions. When the student has finished his school course the guide-cards may be removed and the tablet is ready for his regular daily use as a professional shorthand writer.

**With Filler of 100 sheets (200 pages),  $4\frac{3}{4} \times 8\frac{1}{2}$  inches, 65 cents.**

Filler will be furnished as ordered, ruled in any of the following ways for use with pen or pencil:

*Learners' Paper.* Double ruled, wide. ( $\frac{1}{8}$ - $\frac{1}{2}$  in.) Pen only.

*Reporters' Paper.* Double ruled, narrow. ( $\frac{1}{8}$ - $\frac{1}{4}$  in.) Pen or pencil.

*Reporters' Paper.* Single ruled. ( $\frac{3}{8}$  in.) Pen or pencil.

*Law Reporters' Paper.* Single ruled. ( $\frac{3}{8}$  in., with three left-hand marginal columns.) Pen or pencil.

The paper furnished for pen use is specially made for shorthand reporting, and bears the exclusive "Phon. Inst." watermark.

Paper for fillers is also supplied in bulk, put up in packets of one thousand sheets of any of the above-described kinds.	Price.....	PARCEL POST RATES.

**The Phonographic Institute Steel Pen.** Expressly manufactured for phonographic writing and reporting. These pens have especially fine, smooth points, and pleasant, uniform action. The peculiar shape is such that a great deal of ink is held by the pen without danger of dropping, thus reducing to a minimum the frequency of dipping the pen.

No. 1, extra fine points.

No. 2, fine points.

No. 3, medium points.

Per dozen, 15 cents; per gross ... \$1 50

**The Phonographic Institute Lead Pencil.** Made expressly for us (actual diameter shown in cut), with the finest grade of black

tough lead, and especially recommended for phonographers' use. Per dozen, 60 cents; per gross..... 6 00

### The Benn Pitman Emblem.

To be worn by writers, teachers, and students of the Benn Pitman System of Phonography.

A beautiful gold and dark red enamel emblem showing the circle and straight lines from which the phonographic alphabet is derived, with the name "Benn Pitman" in phonogram characters in the field. The emblem is about two feet—as a pen or as a lapel button—and will be mailed, postpaid.

As a lapel button, or as a pin ..... \$0 50

## Phonographic Tracts.

These tracts are suitable for distribution by teachers and others who wish to spread information in regard to Phonography. Single copies, free; per hundred, 10 cents.

- No. 1. What They Say about Phonography—Opinions of Fifty Eminent Men and Journals.
2. Some Reasons Why You Should Learn Phonography.
3. Can Phonography Be Self-Taught?
4. The Long Gains of Shorthand.
5. Phonography in the Public Schools.
6. Shorthand for Clergymen.
7. Modifications of Phonography—Wise and Otherwise.
8. Points of Difference between the Benn Pitman and the Present English Style of Phonography.
9. What Official Reporters Say about the Benn Pitman System.
10. Shorthand as an Educator.
11. What Some Leading Schools and Colleges Say about the Benn Pitman System.
12. Shorthand for Lawyers.
13. The Advancement of the Shorthand Profession.
14. Shorthand in the Offices of the United States Government.
15. The Standardization of Shorthand.
16. Pitmanic versus Duployan Shorthand.
17. What Teachers of Other Systems of Shorthand Say about Benn Pitman Phonography.

Copies of this Catalog, for distribution, free.

The works herein described are for sale by all booksellers, or will be forwarded by us, postpaid (except when postage charges are given), on receipt of the price specified. Goods will be sent C. O. D. only when order is accompanied by at least one fourth of the price, to insure payment of charges.

*Schools and Teachers of Phonography and Booksellers supplied at a liberal discount.*

*All orders must be accompanied by a remittance. Send post-office money-order, express money-order, New York or Cincinnati draft.*

*Exact shipping instructions should accompany every order.*

N. B.—Local checks will not be accepted unless ten cents is added to cover exchange.
